

# re-lite

listen — learn — reflect — engage

PEOPLE

AND THE

ENVIRONMENT

As humans, we are dependent upon the environment to nourish, provide and support our lives. Sometimes we take it for granted and fail to notice when we are misusing and abusing the world around us. This re-lite session will explore how we relate to the world, its resources and its people, and give opportunity to engage in what can be done to strengthen our relationship with the environment around us.

**Sunday 3rd April 2016, 7:30pm**

**Drinks and social afterwards**
